**RENEWED PETITION FOR CORRECTION OF

Commissioner for Patents

Attn Decision and Certificate of Correction
Branch of the Patent Issue Division

Dear Sir:

In response to the Decision dated November 24, 2009, denying the Petition filed August 4, 2009, the Petition is renewed with slightly modified language that exactly conforms to 37 CFR 3.81(b), although no new information is required or provided for granting of the Petition.

The patentee requests issuance of a Certificate of Correction, according to the Request for Certificate of Correction filed August 4, 2009, to supply the name of the Assignee. The name of the Assignee was inadvertently omitted from the issue fee payment form.

The patent application which resulted in the issuance of the patent was the subject of an assignment of the entire interest in the patent application and patent, from the inventors to the Assignee, Perception Digital Technology (BVI) Limited, of Tortola, British Virgin Islands.

The assignment was executed by the inventors in 2001, and recorded amongst the assignment records of the U.S. Patent and Trademark Office on May 24, 2001 at Reel 011845, Frame 0163. Therefore, the assignment was submitted for recordation, as set forth in

Patent No. 7,548,851

37 CFR 3.11, before the patent issued because the assignment was recorded nine years before the patent issued. The processing fee set forth in 37 CFR 1.17(i), if not already charged, should be charged to Charge Deposit Account No. 12-1216

Respectfully submitted,
